EDUCATION

2021-PRESENT
AMIRKABIR UNIVERSITY

- Computer science

SOFT SKILLS

- Fast Learner
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- Arabic (Basics)
- French (Basics)
- Persian (Native)

PROFILE

As a motivated computer science student at Amirkabir University, I'm seeking internship opportunities to gain practical experience and contribute to innovative projects. I'm really interested in learning and working on security subjects. Still, it's not my only priority and I want to expand my knowledge and experience in different fields like Artificial Intelligence and Game Design. As I look forward to internship opportunities, I'm eager to join a forward-thinking organization where I can contribute, learn, and grow. I'm confident that my background coupled with my dedication to making a difference and an impact on my community will enable me to thrive in any challenging environment.

PROJECTS

creating multiple games

Design and Implementation using Qt

- Designed and developed a 2D game using Qt, a cross-platform application framework. The project involved creating engaging gameplay mechanics, enemy behavior, collision detection, and scoring systems.
- This project enhanced my skills in C++, problem-solving, algorithms, and user interface design while providing experience in game development.

peer-to-peer chat system

creation using HTTP, TPC, Redis

- We developed a peer-to-peer chat system utilizing HTTP and TCP protocols, with Redis for data storage and message queuing. This project aimed to provide a scalable solution for real-time communication.
- This project provided valuable experience in network programming, real-time systems, and working with databases, significantly enhancing my understanding of distributed systems.

PROGRAMMING SKILLS

Programing languages

Python, c/c++

Web development

HTML, CSS
