EDUCATION

2022-PRESENT

COMPUTER SCIENCE
STUDENT AT AMIRKABIR
UNIVERSITY OF
TECHNOLOGY

SKILLS

- Fast Learner
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking
- Public Relations

LANGUAGES

- Persian (Native)
- English (Fluent)
- Italian (Basic)

PROFILE

Computer Science student interested in Cybersecurity and currently building my foundation in network and system security. I am studying CCNA, CompTIA Security+, and CEH while developing practical skills through hands-on labs and CTF challenges. Particularly interested in network security, security monitoring, vulnerability assessment, and penetration testing, and looking for opportunities to gain practical experience in real-world cybersecurity environments. My long-term goal is to specialize in Red Team operations, while continuing to develop a broad understanding of cybersecurity, including SOC operations, security monitoring, incident detection, and threat analysis.

PROJECTS

Backend Development Projects

- Developed multiple RESTful backend services using FastAPI, PostgreSQL, SQLAlchemy, Alembic, and Docker.
- Implemented clean layered architectures (Controller-Service-Repository), database migrations, API documentation, validation, and scalable backend design.
- Built projects including a URL Shortener service with TTL-based link expiration and a Movie Rating API with relational database modeling and rating management.

Artificial Intelligence Coursework Projects

- Implemented fundamental AI algorithms including Min-Max, Genetic Algorithms, Greedy Search, and CSP using Python.

C++ Game Development

- 2D game with collision detection and game mechanics using Qt

Cryptography & Distributed Systems

- Developed a communication system using Python sockets and Redis.
- implemented an RSA-based secure communication prototype

PROGRAMMING SKILLS

security training

CCNA , security+ , CEH

Languages

Python , C/C++

Backend Development

FastAPI , REST APIs , PostgreSQL , SQLAlchemy

Tools

Docker , Git/GitHub , Linux , Postman

Web development

HTML , CSS
